TECHNICAL SKILLS

- TypeScript
- Python
- C++
- C#
- Java
- MySQL
- Git

FRAMEWORKS & LIBRARIES

- ReactJS
- Node.js

ABOUT ME

Computer Science graduate from the University of Science and Technology of Southern Philippines. I am comfortable working across the full range of software development — from low-level systems and algorithm design to web applications, data analysis, and tooling.

WORK EXPERIENCE

Developer Intern

June - July 2026 Kahero POS Systems.

- Underwent structured training using Clean Architecture and Flutter, building modular exercises around entities, repositories, and use cases; gained additional exposure to QA workflows through manual testing and bug documentation.

PROJECTS

DyMoN: A Post-Hoc Kinematic Approach for Detecting Anomalies in Dynamic Networks

- Designed a post-hoc anomaly detection module for temporal graphs that tracks node embedding kinematics as a plug-and-play enhancement over base models, built with PyTorch, NetworkX, and scikit-learn on real-world datasets including MOOC, Wikipedia, and Reddit.

DFA & NFA Simulator

- Built an interactive browser-based finite automaton simulator that lets users construct, visualize, and test DFAs and NFAs, using vanilla JavaScript for automaton logic and Vis.js for graph rendering, styled with Bootstrap.

Hybrid Merge Sort: Combination of Merge Sort and Bubble Sort for Runtime Optimization

- Developed and benchmarked a hybrid sorting algorithm combining Bubble Sort and Merge Sort in Python, integrating a random dataset generator producing up to 1 million entries across uniform distributions for performance analysis.

Loan Manager

- Full-stack local loan management system. The React/TypeScript frontend communicates with a REST API built on Node.js and Express; data are persisted in a normalized MySQL schema with foreign-key constraints to maintain integrity.

EDUCATION

2022 - 2026	Bachelor of Science in Computer Science University of Science and Technology of Southern Philippines – Cagayan de Oro, PH
2020 - 2022	Senior High School (STEM) Gusa Regional Science Highschool - X · Gusa, Cagayan de Oro, Philippines
2016 - 2020	Junior High School Gusa Regional Science Highschool - X · Gusa, Cagayan de Oro, Philippines

AWARDS & RECOGNITION

Cum Laude

University of Science and Technology of Southern Philippines – Cagayan de Oro, PH

DOST-SEI JLSS Scholar

Department of Science and Technology - Science Education Institute

Dean's Lister

- Freshman Year - First & Second Semester (2022-2023)
- Sophomore Year - First & Second Semester (2023-2024)
- Junior Year - Second Semester (2024-2025)
- Senior Year - First & Second Semester (2025-2026)
